

Journal of Experimental Medicine and Biology

Clinical research investigating salvianolate injection for treating coronary angina pectoris of Qi blood stagnation

Yiye Zhao, Yuanying Ding, Lingling He, Shizhao Liu

A metabolite of baicalin detected in rabbit plasma using electrospray mass spectrometry after baicalin administration

Liu Xi-gang, Wang Jin-Zhi, Shi Hong-Juan, Chang Jin-bua, Li Zhong-si, Liu Pei, Liu Cui-zhe

Protective efficacy of vitamin B12 combined with far-infrared radiation on radiation-induced skin damage in the treatment of pelvic tumours

Qin Ge, Cen-ming Yu, Jing Cai, Chun-xia Chu, Guo-dong Xie, Ji-Zhong Zhao

Successful treatment in a patient of POEMS syndrome with thalidomide

Geng Song, Qian He, Nianfei Wang

High-performance liquid chromatography for the determination of oxymatrine content from Radix Sophorae tonkinensis

Changli Shao, Chuling Du, Jingsheng Du, Xi Xia, Yinghong Huang, Yu Cai, Zhibai Huang
