

European Congress on Immunology

Ian Martins

EDITORIAL CONTENT:

ANNOUNCEMENT:

PULSUS Group hosted the series of Immunology events all over the globe in the preceding years. Solicitous response and active cooperation were received from the Editorial Board Members of supporting International Journals as well as from the leading educational Professionals, scientists, researchers, scholars and students from the fields of Immunology that made this event successful. The conference was marked by the presence of eminent peoples in the field of Immunology representing from various countries, which have driven this event into the path of success.

We gratefully impart all our marvellous Keynote and Plenary Speakers, Conference Attendees, Students, Media Partners and Associations for making Immunology Conference a grand success.

With the successful completion of the events of Immunology conferences, Pulsus is proud to announce the "European Congress on Immunology" to be held during March 4-5, 2020 in Edinburgh, Scotland.

Pulsus takes immense pleasure in inviting participants from all over the world to attend the "European Congress on Immunology" (Euro Immunology 2020) on March 04-05, 2020 at Edinburg, Scotland. The conference is structured around the theme "Foster the natural assets of Immunology." which will furnish an international programme for the discussion of advanced research in Immunology. The conference is comprised of prompt keynote presentations, Oral talks, Poster presentations, Young Research Forum, Workshops, and Exhibitions.

Immunology is a stupendous and wide area of the biomedical sciences. It is the study of the immune system

in both healthy and diseased states. European Congress on Immunology, the two days of the congress will host Scientific and technical sessions on cutting edge researches and latest innovations in the field of Immunology and biomedical sciences across the globe. It includes the study of how the body fights infections from micro-organisms, and the development of medical inventions to treat and prevent diseases.

Euro Immunology 2020 promotes top-level research and focuses on the contemporary outstanding achievements in the field of immunology, and future trends and needs. It shares an insight into the recent researches and technologies in the immune system. It will gather participants from academia, business and societies interested in immunology to share the latest innovations related to immunology and pertinent fields. Euro Immunology 2020 will arrange the platform to meet the global leaders in Immunology and listen to their research at this scientific Congress. It's a great opportunity to show case your ideas and share your valuable knowledge.

The conference will have a discussion on 20+major topics and 100+ subtopics. The list of sessions to be discussed are Immunology, Inflammation & allergy, Immunohistochemistry, Reproductive Immunology, Pulmonary Immunology, Neonatal Immunology, Tumour immunology, Immunotoxicology, Wild Immunology, Cardiovascular Immunology, Osteo Immunology, Immunoematology, Computational immunology, Innate immunity, Adaptive immunity, Plant immunology, Vaccinology, Immunomes, Mucosal immunology and much more ... Euro Immunology 2020 has been designed in an interdisciplinary manner with a multitude of tracks to choose from every segment and provides you with a unique opportunity to meet up with both industry and academia people and establish a scientific network

between them. We heartily invite all involved folks to join us at our event and make it successful by your presence.

Participants can choose the research areas from the topics including but not limited to the themes mentioned below for submitting abstracts ;

Immunology

Inflammation & Allergy

Immunohistochemistry

Reproductive Immunology

Pulmonary Immunology

Neonatal Immunology

Tumour immunology

Immunotoxicology

Wild Immunology

Cardiovascular Immunology

Osteo Immunology

Immunoematology

Computational immunology

Innate immunity

Adaptive immunity

Plant immunology

Vaccinology/Immunomics

Mucosal immunology

Euro Immunology 2020 ideology is to bring preponderance exposure to our participants, so we make sure that the event is a blend which covers professionals such as Immunologists, Pathologists, microbiologists, Physicians, healthcare professionals from academia and industry making the "European Congress on Immunology" conference a perfect platform.

Join us on Euro Immunology 2020!
