

2020 Conference Announcement of 3rd International Conference on Microbiology and Infectious Diseases

Giulio Tarro

2020 Conference Announcement

Microbiology 2020 welcomes attendees, presenters, and exhibitors from all over the world to UAE. We are delighted to invite you all to attend and register for the “3rd International Conference on Microbiology and Infectious diseases” which is going to be held during April 15-16, 2020 at Dubai, UAE.

Microbiology 2020 has been organized in such a manner with a number of tracks to choose from every segment and provide a unique opportunity to meet up with peers from both the industry and academia and establish a scientific network.

It is our ideology to bring the exposure to the participants, so we make sure that the event is a blend which covers professionals such as Microbiologists and Life Sciences Researchers making the **Microbiology 2020** a perfect platform. We thus cordially invite all concerned people from both the industry and academia to come to join us at our convention and make it successful by your participation.

The conference will be organized around the theme ‘**To bring out Macro battle against Microorganisms**’. Our ultimate goal of our conference is to deliver an outstanding program that covers the whole spectrum of advanced research & innovation in Microbiology and share the experience of various treatment procedures for Infectious Diseases.

Microbiology 2020 is an international meeting of **Microbiologists** and **Researchers** as well as committees to discuss the advance trends in microbiology in terms of collaboration, structures, and organizational development.

2020 Highlights:

- 200+ Participation (70% Industry: 30% Academia)
- 9+ Keynote Speakers
- 30+ Plenary Speakers
- 3+ Exhibitor
- 14 Innovative Educational Sessions
- B2B Meetings

Why to attend???

With members from around the world focused on learning about the **Microbiological Techniques** and its advances; this is your best opportunity to reach the largest assemblage of participants from the community of Microbiologist and the other researchers. Conduct presentations, share your information, meet with current and potential scientists, make a splash with new discoveries in the treatment of **infectious diseases** and diagnosis, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in use of **Microorganisms**, their uniqueness and role in research field are hallmarks of this conference.

Target Audience:

- Researchers in life science
- Microbiologists
- Specialist in infectious diseases and tropical medicines
- Medical Colleges and Hospital

- Food and Beverages Industries
- Pharmaceutical Microbiologist
- Public Health Microbiologist
- Clinical Microbiologist
- Students and Professionals
- Research Institutes
- Bio Technologist
- Quality Control Clinicians
- Marine Microbiologist
- Farm Technicians
- Under Graduates
- Post-graduates
- Doctor of Philosophy
- Conference Opportunities
- For Researchers and Faculty Members:
- Speaker Presentations
- Poster Display
- Symposium hosting (4- 5 member team)
- Workshop organizing

For Universities, Associations & Societies:

- Association Partnering
- Collaboration proposals
- Academic Partnering
- Group Participation

For Students and Research Scholars:

- Poster Competition (Winner will get Best Poster Award)
- Young Researcher Forum (YRF Award to the best presenter)
- Student Attendee
- Group Registrations

For Business Delegates:

- Speaker Presentations
- Symposium hosting
- Book Launch event
- Networking opportunities
- Audience participation
- For Product Manufacturers:
- Exhibitor and Vendor Booths
- Sponsorship opportunities
- Product launch
- Workshop organizing
- Scientific Partnering
- Marketing and Networking with clients

Microbiology is an enormous field that typically deals with the microorganisms and integrates the fields of bacteriology, virology, mycology, parasitology, antimicrobial resistance and etc. The focal point of Microbiology is the enlightening the behaviour of distinct microorganisms that are in nature and to discover the prevention, diagnosis and treatment of existing and arriving diseases caused by hazardous microbes.

In association with Journal of Clinical Microbiology and Infectious diseases, we the team of Microbiology 2019 must appreciate everyone who were part

Giulio Tarro

President, Department of Biology, Virology and Cancer Research Professor, Foundation T. & L de Beaumont Bonelli for cancer research, Italy, E-mail: gitarro@tin.it

to make [2nd Annual Congress on Microbiology and Microbiologists](#) a great successful event at Spain on October 7-8, 2019 with their great cooperation and commitment.

All the Attendees of Microbiology 2019 have obtained the advance technical particulars in the area of treatment of microbial infections that they were aspiring, and that their role in the field has been enhanced via their participation in this esteemed conference. They were able to take part in all the sessions and grab the advantage of the advancements in Microbiology that researchers are working with. The majorly focused Highlights for our Microbiology 2019 Conference were Diseases caused by microbes, Fungal infection and diseases, Applied and Environmental Microbiology, Diagnosis and treatment of microbial infections and etc.

OCM of [Microbiology 2020](#) is **Giulio Tarro**, Foundation T. & L de Beaumont Bonelli for Cancer Research, Italy.

Next conference in the Microbiology series “Microbiology 2020” is approaching in Dubai!

Followed by the Successful Completion of the Microbiology 2019 Conference, the 2nd edition, we are glad to announce the initiation of the next edition “[3rd International Conference on Microbiology and Infectious diseases in Dubai, UAE](#) on **April 15-16, 2020** which revolves around the theme “To bring out Macro battle against Microorganisms”.

We look forward to you all sharing your incredible knowledge, research ideas and to make a sprinkle with new improvements at this intercontinental event in Dubai. Having you all with us for our Microbiology 2020 is a matter of great pleasure.

This time we have introduced some new highlights for our Microbiology congress such as Bacteriology, Virology, Parasitology, Mycology, Food

Microbiology, Environmental Microbiology, Medical Microbiology& Immunology, Diseases caused by Microbes, Industrial Microbiology, Pathology & Oncology, Microbial Biofilms, Diagnosis and treatment of microbial infections, Infection control, Autoimmune diseases, Vaccines, Infectious Diseases and etc.

Microbiology 2020 is designed in such a way to attract people around the globe from both industry and academia that helps to create a scientific network between them. This event will bring together Professors, Students from academia and researchers in the field of Microbiology, Pharmaceutical Microbiologist and Researchers in life sciences to push forward the Microbiology and Research.

We the team of Microbiology 2020 cordially invite all concerned people to UAE from academic research as well as from industries to come and join us at our esteemed convention and make it a successful event by your valuable presence. We heartily welcome all the Microbiology Professionals, Delegates, Researchers, and Students to make your worthy presence in Dubai on April 15-16, 2020.

The growth of market in the field of [Microbiology](#) is increasing day by day. The Global Clinical Microbiology Market is looking forward to reaching USD 4.95 billion by 2023 from USD 3.63 billion in 2018, growing at a CAGR (Compound Annual Growth Rate) of more than 6%. Microbiology 2020 Event is expecting more than 200+ Participants to enlighten the program. This time the Microbiology 2020 will organize several Oral and Poster Presentations, Networking Sessions, Workshops, Symposiums, Exhibition as we have introduced several interesting tracks to bring in more participants to this wonderful platform.
