

2020 Conference Announcement of 5th World Biotechnology Congress

Giulio Tarro

The previous series that has been a grand success and excellent opportunity to share the innovative ideas with expertise professionals from all over the world and it's time to thank our organizing committee, attendees, media partners, exhibitors, and collaborates. It wouldn't have been possible without their support and for sharing their ideas and valuable time with us.

This has been a greater source of encouragement in organizing the upcoming **5th World Biotechnology Congress**.

The attendees of the congress obtained special lectures featuring expertise in the field of Biotechnology. It has also provided an excellent opportunity for the scientists and young researchers through its special initiatives like Young Researcher Forum, Poster Presentation, B2B and Scientific Meetings.

The Majorly Focused Highlights for our 4th World Biotechnology Congress were Research Based Agricultural Biotechnology, Pharmaceutical Biotechnology, Cancer Biotechnology, **Nanotechnology**, Genetics Biotechnology, Protein Engineering, Stem Cell technology, Marine Biotechnology, Clinical Immunology, computational techniques of Biotechnology and more.

Hence, 4th World Biotechnology Congress gave justice to the theme “**A Scientific Extravaganza for the Innovations and Development of Research in Biotechnology**”

All thanks to our Media partners also for associating with us.

Clocate, VenueDir, Kindcongress, Vydy Health, CourseForDoctors, CourseForDoctors, The Pharma Times, Medical events guide, Plus91, Asian Manufacturers Journal, Tabeeby, Bentham Science, Medical tourism, Laboratory Industry in Cambodia, Laboratory Industry in Myanmar.

BOOK YOUR SLOTS for “5th World Biotechnology Congress”

The world of science has been evolving on daily basis and there have are many things which are being uncovered every day in different parts of the

globe. It is very important to share these research findings to avoid the process of the reinventing the wheel. With this motto Pulsus is organizing the “**5th World Biotechnology Congress**” which is scheduled to be held at **Dubai, UAE on April 15-16, 2020**.

The International Conference on Biotechnology has become the premier platform not only for the presentation of new science, but also for unique networking opportunities. Building on the success of previous Conference, the 2020 Conference will be the world's largest international gathering of Biotechnologist, Pharmacist, researchers and scientists in the field of biotechnology and for sure it will be justice to its theme “**Emphasizing the Advancements and Applications of Biotechnology for Future**”.

Biotechnology 2020 accepts research proposals to present this annual meeting under the below categories:

Industrial biotechnology

Chloroplast Biotechnology

Pharmaceutical Biotechnology

Nano Biotechnology, Marine Biotechnology

New and Emerging Trends of Biotechnology in Bioremediation and more.

All the papers to be presented in Biotechnology 2020 will be published in **Journal of Medical Biotechnology, Journal of Pharmacology and Medicinal Chemistry**, will offer you an unforgettable experience in exploring new opportunities.

This congress expects 200+ participants and it would like to organize several sessions in keynotes, oral, poster, networking sessions, workshops and exhibitors.

Biotechnology 2020 welcomes delegates from all around the world to attend at **Dubai, UAE on April 15-16, 2020**.
