

2020 Conference Announcement of 5th World Congress on Neurology and Therapeutics

Koji Abe

Advanced Neurology 2020 declares a whole hearted solicitation to all the participants, students, attendees and business delegates from all over the world to Barcelona, Spain. Delighted to welcome you to 5th World Congress on Neurology and Therapeutics during **Dec 08-09, 2020** in **Barcelona, Spain**.

Advanced Neurology 2020 aims to congregate the Neurologists, Neurophysiologists, Neurosurgeons, psychiatrists, physiatrists, Pharmacists, Research scientists, Neurology Organizations and societies, Professors and Students from Academia and even from business delegates across the world to provide an international rostrum for the dissemination of original research, novel ideas and practical development experiences. This year's event will be sure to have a meaningful experience witnessing with scholars from around the world.

Its all worth to know <http://neurology.pulsusconference.com/>

Importance and Scope

The Neuroscience market aims to understand the functioning and manipulation of nervous system, how one's brain mechanism works, understands, reacts and complex neuronal circuits based on ongoing research on brain mapping and investigation projects.

The demand for such research is due to the increase of various nervous disorders including Parkinson's disease, Alzheimer's disease and inherited genetic disorders and another reason is the lack of research unity towards the healthier world.

This Meeting strategic astuteness is to be an event for bringing together Scientists, Physicians, International mix of leading Universities, Alzheimer's and Dementia Institutions, on growing welfares for Neurological Impairments to transform the practices, to prevent, to control and cure these neurological diseases.

Glance at Market Share

According to WHO, it has been reported that about one billion of people are suffering from worldwide neurological impairments and 6.8 million people die every year suffering from it.

According to the UN report: nearly one in six of the world's population suffer from neurological disorders, from Neurological impairments like Alzheimer's, Parkinson disease, strokes, multiple sclerosis and epilepsy to migraine, brain injuries and neuro-infections, with some 6.8 people dying of the maladies each year.

Though there are 600 known neurological disorders which affect our nervous system and our muscular system severely but still for most of the diseases treatment options are very limited and research is going on. It features board investigations in the Neurology, Neurophysiology and interdisciplinary departments of Neurosciences and many new inclusion of main tracks.

By using the global statistics, it's far visible that 50 million people be afflicted by epilepsy, sixty- million people be afflicted by cerebrovascular disease, 3 hundred and twenty-six million human beings suffer from migraine, and twenty-4 million of the population suffer from Alzheimer

sickness and other dementias. according to the college of California, San Francisco.

The range of neurological sickness is heading extra than six hundred, out of which maximum of the diseases remedy remains beneath limitations and research continues to be processing. the global Burden of disorder have a look at, in conjunction with the ongoing worldwide collaborative venture among WHO, the world financial institution and the Harvard college of Public fitness, has come up with the evidence that pinpoints neurological problems are one of the greatest threats to public health.

Current advances in Neurosurgical era have meant that the focal point of remedy for spinal situations has improved closer to protection of normal spinal motion and sparing of structures adjacent to hassle regions. consistent with the record of the sector fitness enterprise (WHO) on neurology shows that neurological issues, ranging from epilepsy to Alzheimer disease, from stroke to headache, affect up to 1Billion of the population worldwide.

Major Neurology and Neurophysiology Associations around the Globe

- American Clinical Neurophysiology Society
- American Physiological Society
- American Board of Psychiatry and Neurology (ABPN)
- American Neurological Association (ANA)
- American Academy of Neurology
- American Society of Neuroimaging
- American Association of Neurological Surgeons
- Child Neurology Society
- European Federation of Neurological Societies
- Indian Academy of Neurology
- Neurological Society of India

Target Audience

Neurologists, Neurosurgeons, Neurophysiologists, psychiatrists, physiatrists, Pharmacists, Research scientists, Neurology Organizations and societies, Pharmaceutical (drug design and discovery) companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students from Academia in the study of Neurology and Neurophysiology and researchers who utilize neurophysiological techniques and knowledge in the diagnosis and management of patients with disorders of the nervous system.

Top Universities around the globe

- Dalhousie University
- Leiden University- Neither land
- Temple University USA
- University Oklahoma
- Boston Coll USA

- University California - Davis
- University Sheffield
- University Manchester
- University of Nottingham
- Cardiff University
- University of Toronto - Canada

Major Hospitals around the Globe

All around the globe there are 6000 hospitals working on Neurology

Some of them among them are:

- Johns Hopkins Hospital
- World Brain Center Hospital
- Duke University Hospital
- Edward Hospital
- Munson Medical Center
- Mount Sinai Hospital

Top companies around the globe:

- Janssen Pharmaceuticals
- Pfizer

- Eisai
- Novartis Pharmaceutical Corporation
- Actinogen Limited
- Alector LLC
- AlzProtect SAS
- TauRx Therapeutics Ltd
- Pacific Northwest Biotechnology
- Tautatis Incorporated
- Forest Laboratories

Top companies in Italy:

- Abbott Laboratories
- GlaxoSmithKline
- Pfizer
- Novartis
- Bayer
- Sanofi-Aventis
- UCB Pharma
- Eli Lilly
