

# 2021 Conference Announcement on Agricultural Techniques

---

We are pleased to welcome you to the “International Conference on Agronomy and Agricultural techniques” after the successful completion of the series of Agronomy Congress. The congress is scheduled to take place in the beautiful city of Singapore on September 24-25, 2021. This 2021 conference will provide you with an exemplary research experience and huge ideas.

The perspective of the Agronomy Conference is to set up novel research techniques to help researchers understand how innovative techniques have advanced and how the field has developed in recent years.

The Agricultural industry channels an important proportion of total research in most developed countries. In Europe, for example, it represents about 13% of total R&D. In recent years, Agriculture companies have been accused of devoting their resources mainly to minor improvements over existing that require short clinical trials and have a small risk of not being accepted. The provision functions were an integral part of a large company's R&D function but nowadays they are most likely to be outsourced under contract to external societies specializing in a particular service, especially if these activities are not seen to offer a competitive advantage to the company

The Conference contains Keynote Forum, Oral and Poster presentations, Young Research Forum and Exhibitions. The aim is to gather prominent academic scientists, researchers, specialists, industrialists and research scholars to discussed and share their know-hows and research works on all aspects of Agronomy and Agricultural techniques. Longdom Conferences organizes 3000+ Global Events comprises of 600+ Conferences, 1200+ Workshops and 1200+ Symposiums every year in USA, Europe & Asia with support from 1000 more scientific societies

To enhance the field and make people aware of it. The organizing committee decided to hold a conference. Novel and innovative techniques are the fast growing and developing areas of Agronomy and Agriculture. Agronomy conference brings together individuals who have an interest in different fields of Agriculture . It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions

People who have missed attending the past conference are most welcome to present your research ideas at The Agritech 2021 This conference will help you improve networking with eminent people in the field of research. Agronomy Conference aims to discover advances in innovative techniques in Agronomy Clinical Trials education in relation to health disparities as well as a breadth of other topics. According to the reports, total Nutrition care spending of London is 9.7% of GDP according to 2014 and estimated to increase of 10.5% by 2019. Estimated Plant care expenditure of London is \$209 million, it is higher compared to other countries of South America. Health care expenditure of Latin America is \$89.2 billion and expected to increase to \$101.8 billion by 2020.

Agronomy conferences provides a global platform for exchanging ideas and makes us updated about the latest innovations in Agriculture. Opportunity to attend the presentations delivered by Eminent Scientists from all over the world.

Agritech 2021 gives a couple of quantities of unexampled opportunities to control your calling. You can embrace new segments to Agriculture change your bits of knowledge and work with new developments and extra contemplations from experts at the forefront of Agronomy.
