ABOUT NEUROGENETICS 2022 CONFERENCE

Neurogenetics 2022 | March 25-26, 2022 | Toronto, Canada
Conference Series LLC Ltd welcomes you to attend the 33rd Conference on Clinical Neuroscience and Neurogenetics to be held in Toronto, Canada on March 25 - 26, 2022.

The theme for the conference this year is Best direction to challenge Neurogenetics and Neurodegeneration Researches.

Neurogenetics ME Conference organizes 300+ conferences, 500+workshops and 200+symposiums on Clinical, Medicine, Pharma and Science & Technology. Neurogenetic events are every year across UK, Europe, Asia, Middle East, Australia and USA that support Neurogenetic conferences from 1000 more scientific societies and Publishes 500 open access journals which contain over 30000 eminent personalities, reputed scientists as editorial board members. Neurogenetic 2022 comes under Neurogenetic medical conferences.

With the coordination of the Organizing Committee, we are gratified to be framework the program for the 33rd Conference on Clinical Neuroscience and Neurogenetics, March 25-26, 2022 in Toronto, Canada. Our conference includes a well-proportioned cast of speakers, covering both generous and precise topics of concernment. Our conference intents to provide neurology physicians, specialists, nurses, technologist, neuroscientists, professors, students and anyone professionally involved in Neurogenetics and Neuroscience with an opportunity to learn about the multiplicity of the Neurogenetics, discuss interventional procedures, look at sophisticated Neurogenetic practices and their efficacy and efficiency in the treatment of various Neurodegenerative cases, and comprehend practical constraints in improving healthcare. The Neurogenetics 2022 will be organized encompassing the theme "Best direction to challenge Neurogenetics and Neurodegeneration Researches". Neurogenetics 2022 is comprehended of 16 tracks designed to offer widespread sessions that direct current issues in neurogenetic research affairs.

Millions of individuals across the globe are affected by Neurogenetic disorders – some are minor and others are critical. An extreme part of research is going on Neuroscience and Neurogenetics in the top Universities across the globe. Many companies are associated with various diagnostic instruments and other therapeutics. Besides these various societies and research labs are also associated in this research

field.

This is a distinctive international meeting where Neurology specialist can meet their colleagues from around the world, and exchange ideas and new information in the field of Neuroscience and Neurogenetics. The Program is designed for people who are actively involved in the management of Neurology. We have gathered a renowned international faculty, and attendees will gain the opportunity to learn and receive innovations about the latest knowledge in Neurogenetics and Neuroscience. Neurogenetics 2022 invites all interested participants to consolidate us for this honoured event at the gorgeous destination Toronto, Canada.

Why to attend?

International Conference on Neuroscience and Neurogenetics is among the World's leading Scientific Conference. The two-day program will gather internationally renowned experts in the field of Neurology and different Neurological diseases and provide a forum for presenting and sharing ideas at academic, conceptual and clinical levels. The speakers will highlight current challenges, research and clinical developments and offer their unique insights in their field of expertise.

The attendees can find exclusive sessions and panel discussions on latest innovations in Advanced Clinical Neuroscience and Neuro Surgeries and by:

- Lectures from renowned speakers
- Keynote forums by Prominent Professors, Doctors
- Open Innovation Challenges
- Poster presentations by Young Researchers
- Global Networking sessions with 50+ Countries
- Novel techniques to benefit your research
- Best platform for Global business and Networking opportunities
- Meet the editors of referred journals, Society and Association members across the Globe
- Excellent platform to showcase the latest products and
