

3rd International Conference on Cancer Science and Cancer Therapy

Alexander Birbrair

The Journal of Cancer and Metastasis Research brings out the innovative research findings that have relevance to understanding the aetiology of cancer and to improving the treatment and survival of patients. The aim of this journal is to recognise and support the global efforts to understand and control cancer involve clinicians trained in many branches of medicine and scientists from most biological disciplines, biochemistry, pharmaceutical and medical sciences.

The World Conference on [Cancer Science 2020](#) has become the premier platform for the presentation of new science and also for unique networking opportunities. Building on the success of previous Conferences, the 2020 Conference will be the world's largest international gathering of clinicians, researchers and scientists in the field of Cancer Science and Oncology.

We would be delighted to have you present at the conference to present and hear what the World-renowned scientists, Noble laureates, researchers, oncologists, experts and scholars have to share about the innovations, advancements and developments, recent technologies and trends in cancer and the impact of cancer and daily lives. We would also love to hear your thoughts and opinions to this direction.

The Majorly Focused Highlights for our Cancer Science 2019 Conference were Alternative Medicines in Cancer, Biomarkers, Cancer Biology, Cancer Diagnosis and Screening, Cancer Epidemiology, Cancer Immunology, Cancer Prevention and Management, Cancer Science and Targeted Therapies etc.

It is our great honour and privilege to welcome you most warmly to our esteemed conference, "[3rd International Conference on Cancer Science and Cancer Therapy](#)" which is to be held on October 21- 22, 2020 at Rome, Italy.

This conference is the brainchild of the top Cancer conferences in the world to bring together the best brains for some roundtable discussions on the direction and flow of advanced technology in cancer treatments for the world in the next decade.

The Conference program will be both exciting and ground-breaking in its wide-ranging and multidisciplinary content. In addition to abstract presentations and lectures by world renowned invited speakers, we will be offering workshops, Exhibition, interactive sessions, hands on workshops as well as several sessions specifically dedicated to nurses, patients and advocates.

We trust you will go along with us for a concerto of exceptional science and set aside some additional opportunity to value the extraordinary and one of a kind marvels of this area.

Once again, we welcome all to gather for the conference. We look forward for your esteemed and confirmed presence at our conference.
