

Conference Announcement: International Conference on Clinical Microbiology and Immunology

Prof. Giulio Tarro

The Scientific Community of **Clinical Microbiology 2020** cordially invites our cardinal participants and speakers from across the world to the “**International Conference on Clinical Microbiology and Immunology Congress**” scheduled during **March 16-17, 2020**, at **Frankfurt, Germany**. Journal of Experimental and Clinical Microbiology, Journal of Clinical Microbiology and Infectious Diseases and Journal of Immunodiagnosics include the research works of Clinical Microbiology and Immunology.

The theme focused for the **Clinical Microbiology 2020** is *Advancements, Innovations and Novel approaches in Microbiology and Immunology*.

This is the most exciting event of the year as we welcome our new Organising Committee Members into the Membership. This year our Committee Members have worked to ensure a program for Professional Development, Networking opportunities and many more. In Frankfurt, we hold a rich history and study of science and we are proud to continue our endeavours towards developing medical discoveries by organising this event.

Clinical Microbiology brings the world's leading **Microbiologists, Immunologists**, academic scientists, researchers and research scholars, **Microbiology and Immunology** professionals concerned with the profession and practice of **Microbiology and Immunology** to exchange their experiences, thoughts and researches on all aspects of **Microbiology and Immunology**.

Clinical Microbiology 2020 program will offer the speakers and delegates the chance to organize several Oral and Poster Presentations, Networking Sessions, Workshops, Symposiums, Exhibition as we have introduced several new tracks to bring in more participants. **Clinical Microbiology 2020** provides an opportunity to explore and learn about the advanced theoretical and practical aspects of **Microbiology and Immunology**.

We have introduced some new highlights for our **Clinical Microbiology 2020**- **Medical Microbiology, Microbial Pathogenesis, Microbial Biochemistry, Antimicrobial Resistance, Microbial Genomes and Physiology, Environment Microbiology, Molecular Microbiology, Immunology, Immunopathology and Immunoinformatics, Diseases caused by Microbes, Immunosuppression and Immunodeficiency, Autoimmune Diseases, Immune Evasion, Cancer Immunology, Immunotoxicology, Veterinary Immunology, Immunotherapy, Food and Agricultural Microbiology**.

We are looking forward for the **Clinical Microbiology 2020** to be successful from all over the world to exchange their ideas, researches and their experiences to make your beautiful presence in **Frankfurt, Germany** by **March 16-17, 2020**.
