

## Conference Announcement of International Conference on Eye Disorders and Treatment

Milica Rankovic Janevski

---

Pulsus Group, with a legacy of 30 years of excellence in Publishing and with a support of various societies, we take up an immense pleasure in organising the new series in Gynecology “**International Conference on Eye Disorders and Treatment**” during **Sep 30, 2020 - Oct 01, 2020 at Vancouver, Canada**.

**Ophthalmology 2020** focuses on the Theme: “**Exploring the Perspective in the Field of Ophthalmology**”.

**Ophthalmology 2020** seeks to attract experts from several keynote speakers, universal personalities and it also deals with special sessions as well as poster presentations. The conference was conceived to highlight the ravishing ideas where the following principles will take place in the Ophthalmology sector. Including excellent lectures and discussions.

### OUR CONFERENCE HIGHLIGHTS INCLUDES:

Ophthalmology, Ophthalmic Surgery, Cataract Surgery, Oculoplasty, Refractive Eye Surgery, Extracapsular cataract extraction, Pediatric Ophthalmology, Intraocular melanoma, Neuro-ophthalmology, Nano-ophthalmology, Laser iridotomy, Diabetic retinopathy, Fluorescein angiography, LASIK, Vitreous detachment, Dry eye syndrome, Ocular oncology.

**Ophthalmology 2020** is interdisciplinary in nature and offers you a unique opportunity to meet and build a scientific network between industry and

scholars, through a wide range of different tracks. All concerned people are cordially invited to join and succeed in participating in our event.

At PULSUS Group, it is our ethos to ensure that our attendees are fully exposed and that the event is a mix that involves professionals including Ophthalmologist, Surgeons and educational & industrial healthcare professionals, that makes **Ophthalmology 2020** an ideal platform.

Our goal is to build and share the multicultural experience in different care processes with a specific research and innovation program in **Ophthalmology**.

This **Ophthalmology 2020** was designed to help women resolve their conditions by encouraging foreign Ophthalmologist and science experts using established exploratory findings. We look forward to your time in Paris and sharing your experience and research work that will take you forward in the fields of **Ophthalmology**.

*SAVE THE DATE , Ophthalmology 2020 is Happening!*
