Applied Strategies in 2019

We have applied many strategies in 2019, i.e.

- Using contacting through Mobile (Whatsapp) phones
- Sent Call for papers for the eminent in the field
- Approaching the Editors suggested eminent
- Approaching potential reviewers for the Call for papers
- Maintaining the frequency of articles.

Upcoming Strategies to improve Journal

- We are coining Special Issue on “Impact of Microbial Infections in Clinical Outcomes” as the Novel Corona Virus/Covid-19/SARS-CoV-2 is an unpredicted pandemic to the universe. We are providing a platform for the research aspirants who can submit their manuscripts. It is a wider scope topic can also cover Clinical Microbiology and Emerging infections as per the suggestions of Dr. Lu Cai.
- We strive to improve readers for the published respective article in various social media platforms like Twitter, Linked in, etc.
- We are approaching core Laboratories, research institutes, investigation labs and departmental Universities for call for papers as well as related journals.
- We are sending timely Call for papers for the respective countries according to their time line.

- We are using Search Engine Optimization (SEO), by adding major keywords in the article, it would be easier for the Google Keyword Planner to show our article in higher pages while the readers search.
- We are also available to the authors through live chat and Whatsapp to respond fast.

Conclusion

I wish to provide some perspective from the cycling research community of International Journal of Anatomical Variations with regard to a recent Editorial note of our Journal. I solely believe that the quality of the journal is based on the Eminence presence in the Editorial Board as well as Reviewer Board (potential reviewers) who strive to make the papers significantly productive and helpful for the scientific community.
