Alexander Ramm. Editor Note. *J Pur Appl Math.* 2020; 4(2):3:3.

---

**D**ear Readers,

We are pleased to bring you the second issue of 2020. Along with few original papers and review papers, for this issue we decided to acknowledge the contributions during this COVID-19 crisis.

In the past years, apart from releasing regular issues at present, our main focus is to make scientific papers more accessible for aspiring researchers.

With the support of Editorial board members, and Executive editors, we are planning to come up with interesting special issue topics to encourage the authors.

Journal of pure and applied mathematics comes under the top ten journals in this open access field.

In 2020, we have already released two issues and now we are in the process of releasing another issue.

Thank you, to the editorial board members who have supported the journal since its inception and who continue to promote its growth. And to the reviewers, we appreciate the time you dedicate to ensuring papers meet our standards for scientific quality and integrity.

Our journal was founded to help junior researchers and authors from developing countries learn about the rigour involved in preparing a manuscript for publication and in getting published. We remain committed to that objective.

As well, we continue to receive more papers from leading researchers from all countries, which is a testament to our commitment to quality.

Finally, Journal of pure and applied mathematics sincerely appreciates each and every member for their valuable service in this Publication Process.

We always look forward to work with many young scientists across the globe

I take this opportunity to acknowledge the contribution of (Alexander Ramm) during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of PULJPAM in time.

I would also like to express my gratitude to all authors, reviewers, the publisher, the advisory and the editorial board of PULJPAM, the office bearers for their support in bringing out yet another volume of PULJPAM and look forward to their unrelenting support to bring out the volume 4 of PULJPAM in scheduled time.
