

Dear Readers,

We are very much delighted to mention all of you that we have completed our 3rd successful year in the arena of publishing and research on Pharmacology. Over the past 3 years we have spread our wings across the globe and have collaborated with many scholars, researchers and budding scientific community who has contributed to our growth and success. Our combined continuous efforts has received a tremendous response and attracted billions of readers across the globe. During the year 2019, all issues of volume 2 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. Journal of Pharmaceutical Chemistry and Pharmacology has published articles related to Pharmaceutical Formulations: Academic and Industry Perspective, Pharmaceutical Research and Development, Chemo genomics, Solid-state pharmaceutical chemistry, Pharmaceutical Organic Chemistry, Pharmacovigilance, Drug Discovery Chemistry, Medicinal Chemistry Strategies, Pharma Medicinal Chemistry, Integrating Medicinal Chemistry into the Drug Discovery Process, Pharmacokinetics and Pharmacodynamics in Drugs, Drug Design and Synthesis, Organic Chemistry, Nano medicine and Biomedical Applications, Chemical Synthesis and Catalysis, Pharmacovigilance and Cosmetovigilance, Bioorganic Chemistry, Pharmacognosy and Phytochemistry, Medico Marketing, Medicinal Chemistry: Physical Properties and Drug Design, Recent Advances in Pharmaceutical Technology. Out of all the papers published Most of the papers were from United States of America, India and African subcontinents. Average publication lag time of an article was further reduced to 45 days. Pharmaceutical Chemistry and Pharmacology is an International peer reviewed, open access journal that provides wide range of knowledge on current on-going clinical practice and research for pharmacies and Pharmacology professionals who care for people with acute and chronic illness in emergency conditions. The journal creates a platform for the authors to contribute through their research and scholarly outputs. As prevalence of various health issues is increasing worldwide, it is imperative through research that we understand diverse risk factors, evaluate the efficacy of Pharmacology and deduce the ideal care strategies. The editorial office promises peer reviewing of the submitted manuscripts to maintain quality. The journal aims to publish the most complete and reliable information on discoveries and current developments in the field of Pharmaceutical Chemistry and Pharmacology. Pharmaceutical Chemistry and Pharmacology publishes original research, review articles, case studies, editorials and clinical images of Pharmaceutical Chemistry and Pharmacology. The journal also includes but does not limit to various fields of research upon nurses while providing care for Anvisa regulatory guidelines, Biopharmaceutics, British regulatory guidelines, Drug devices, European regulatory guidelines, Japan regulatory guidelines, Medical devices regulations, Pharmaceutical care making them available online to worldwide researchers without any subscription fee. Pharmaceutical Chemistry and Pharmacology is using Editorial Manager System to maintain quality in the online manuscript submission, review and tracking process. Editorial board members of Pharmaceutical Chemistry and Pharmacology along with eminent scholars conduct the review process; at least two independent reviewers approval followed by the editor is required for the acceptance of any citable manuscript. As of today's society, the use of social media has become a necessary daily activity, it is a valuable tool locally and worldwide, so we will communicate with the Researchers, Students, Scholars, Scientists, Professors, Deans, Institutes, Universities, and all the members related to the subject through LinkedIn, Twitter, Face book, My Live Chart, WhatsApp. We post the upcoming Issue and Journal highlights and current research works in social networks, So that all the members can work on the research and submit their papers. I take this opportunity to acknowledge the contribution of authors during the final editing of articles published and the support rendered by the editorial assistant in bringing out issues of APN in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Journal of Pharmaceutical Chemistry and Pharmacology, the office bearers and staff for their support in bringing out yet another volume of APN and look forward to their unrelenting support to bring out the Volume 5 of APN in scheduled time.time
