EDITORIAL NOTE

Human trafficking is a shape of present day day slavery involving exploitation, abuse, and struggling of victims. Survivors of human trafficking frequently are seeking scientific care for extreme fitness troubles ensuing from psychological and bodily abuse. Nurses play a imperative position in identifying, advocating for, and supporting victims of human trafficking to safety. Sadly,

trafficked sufferers frequently continue to be unrecognized due to fitness care providers' lack of attention and perception of human trafficking.

Nurses play a indispensable function in supporting victims of human trafficking to safety. Nursing college students have to study how to perceive victims of human trafficking. Human trafficking schooling includes 4 key content material areas. Nurse educators are furnished with measurable scholar getting to know outcomes. Creative educating techniques have to be used to enforce trafficking education.
