

Pulsus Group is to organize the “[Global Summit on Biofuels](#)” which is the world’s leading educational meet organized on **September 23-24, 2020 at London, UK.**

[Biofuels](#) conference offers budding scholar awards to exceptional graduates, outstanding researchers or early academicians who have distinctive involvement towards the conference theme. The Award strives in providing a strong professional development and improvement opportunity for early career academicians, interacting with professionals from other parts of the world, meeting experts in the field and creating networks and long-term relations.

A biofuel is a fuel that is produced through contemporary biological processes, such as agriculture and anaerobic digestion, rather than a fuel produced by geological processes such as those involved in the formation of fossil fuels, such as coal and petroleum, from prehistoric biological matter. Biofuels can be derived directly from plants, or indirectly from agricultural, commercial, domestic, and/or industrial wastes. Renewable biofuels generally involve contemporary carbon fixation, such as those that occur in plants or microalgae through the process of photosynthesis. Other renewable biofuels are made through the use or conversion of biomass. The global transportation fuel demand is expected to go up by 55% by 2030 compared to 2004 and is set to drive the demand for biofuels.

The experts from various fields of [Biofuel](#) are honoured with various awards in the conference for their contributions and research works. The awards are presented to the conference attendees with an intent to encourage their research spirit and improve their dedication. Perceiving remarkable commitments made by the researchers and students, we are honouring them with these awards listed below.

List of Awards

Best Key-Note Speaker Biofuel 2020

The [Best Key Note Speaker Award](#) is given to recognize the expertise and prominence of the expert or the professional in the field of Biofuel extraction and production. This award is presented to the keynote speaker whose presentation and research work is of utmost excellence. A special Memento is given to the Best Key-Note Speaker at the conference.

Best Organizing Committee Member Biofuel 2020

Biofuel conference is proud to honour the Organizing Committee Member whose dedication and support is recognized as the most eminent. A special Memento is given to the Best Organising Committee Member at the conference.

Best Poster Award Biofuel 2020

The [Best Poster Award](#) is presented to honour a Poster presenter whose research is recognized as unique and contains the novelty in their work. A special Memento is given to the Best Poster Award at the conference.

Outstanding Speaker in Biofuel (oral presentation)

Biofuel conference is proud to honour the [best Oral presenter](#) whose presentation and speech reaches the high expectations of the Committee members. A special Memento is given to the Outstanding Speaker at the conference.

Young Scientist Award

Biofuel conference is proud to honour the budding student researchers with a [Young Scientist Award](#) who performs best at the conference.
