

Market Analysis of 17th World Congress on Pediatrics and Neonatology

Milica Rankovic Janevski

[Pediatrics 2020](#) conference will focus on how to foster merit in pediatrics research and child health which offers an exceptional open door for specialists across the globe to meet, organize, and see new logical improvements. The current year's World Pediatrics 2020 features the subject, "**Recent Innovation and Information of Pediatrics and Neonatology**" which mirrors the noteworthy advance in Pediatric and Neonatology Research. The two days meeting incorporates workshops, symposiums and extraordinary keynote sessions directed by famous and prestigious speakers who exceed expectations in the field of Pediatrics and Neonatology. This worldwide Pediatrics 2020 furthermore supports the vibrant interest of youthful understudies, forthcoming analysts and growing researchers as we are facilitating Poster Award Competition, Young research Forum and Research excellence awards at the gathering venue.

IMPORTANCE

Prevention is one of the hallmarks of pediatric practice, including such diverse activities as newborn screenings, immunizations, and promotion of car seats and bicycle helmets. Pediatrics and pediatrician plays an important role in the health and wellness of children which includes physical behaviour and mental health issues. One of the most significant contributions of a pediatrician is to reduce the rate of infants and children death. Well, pediatricians not only provide medical care for children who are acutely or chronically ill but also provide preventive health services for healthy children from birth to adolescence.

WHY JAPAN?

Japan is without a doubt one of the busiest, craziest, more bizarre cities on the planet!! Tokyo is Japan's capital and the world's most populous metropolis. It is also one of Japan's 47 prefectures, comprising of 23 central city wards and numerous cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture and dining to its visitors. The city's history can be appreciated in districts such as Asakusa and in many excellent museums, historic temples and gardens. Contrary to common perception, Tokyo also offers several attractive green spaces in the city center and within relatively short train rides at its outskirts.
