

Polymer Chemistry 2020 | Award Content

Abdelmonem Hegazy

AWARDS

Acknowledging the grand success of Polymer chemistry 2019, we are delighted to host the next series “[International Conference on Polymer Chemistry](#)” (Polymer Chemistry 2020) on **April 13-14, 2020** in **Dubai, UAE**. This conference will provide you with an opportunity to present keynote talks, Oral presentation, exhibitions and discussion in learning, creating new connection and to gather with world-class educators, researchers, Young researchers.

The main scope of Polymer chemistry 2020 is to focuses on the chemical synthesis, structure, chemical and physical properties of polymers and macromolecules. Polymer chemical is used to create, study, and manipulate the characteristics of polymers to create materials with specific chemical, biological, and physical properties. Polymers permeate each side of existence, and it is difficult to imagine society without synthetic and natural polymers. It is our ideology to bring exposure to our attendees; therefore we make sure the event is a blend of professionals such as Chemists, Researchers and Students working in the field of Polymer chemistry.

The categories of Polymer Chemistry 2020 are:

- Oral Presentation
- Keynote Speech
- Video Presentation
- Poster Presentation
- E-poster Presentation
- Young Researchers Forum

Polymer Chemistry 2020 encourages all cardiac enthusiasts who join us by honoring them with awards. The various awards to be presented at the event are:

1. Young Scientist Award and Research Excellence Award
2. Best Keynote Presentation
3. Best Poster Presentation

Young Scientist Award: Promoting and encouraging the achievements of budding researchers in the field, Polymer Chemistry 2020 will honor them with the ‘Young Scientist Award’. This award will be honored by the board members and if willing, they would be able to publish the article in full-length for free in the corresponding conference journals.

Eligibility and Criteria: Any researcher below the age of 35 is eligible for this award. They must be engaged in research work laboratories/institutes. Each participant must submit their own unique research works or articles.

Best Keynote Presentation: Duration of 40 minutes would be given to each keynote speaker to present their research works. This award will be decided by the Organizing and Scientific Committee Members.

Eligibility and Criteria: Any experienced professional in the field who are engaged in research work laboratories/institutes is eligible for this Award. Everyone must submit their own unique research works or articles.

Best Poster Presentation: This presentation includes a combination of visual and oral presentation of the research articles in the form of a poster. The abstracts will be published in the supporting journals. Best poster will be selected based on the presentation style, research quality, layout, design and clarity.

Eligibility and Criteria: Any experienced researcher or a young research individual in the field, engaged in research work laboratories/institutes is eligible for the Award.
