

# STUDY OF HIV STATUS IN 400 CASES OF S.T.Ds IN SHANTI ID CLINIC. VADODARGUJARAT, INDIA

Narendra Kumar Chopra

Clinical Professor, Faculty of Medicine, clinical campus, hospital Sibiu 95000 (Sarawak) SEGI University, Malaysia.

---

## Abstract

The prospective study was carried out for detecting the prevalence of HIV in sexually transmitted diseases (S.T.D) cases at Shanti infectious diseases clinic at Vadodara, Gujarat, India from January 2018 to May 2020. Out of 400 cases of sexually transmitted diseases, 317 (79.23 %) were males and 83 cases (20.75%) were females. Screening of HIV test was done by Elisa test and was confirmed by Western blot test. Amongst 400 cases 300 cases (75.00%) were in age group of 20 to 50 years, 34 cases (8.55%) were of 0 to 20 years, 66 cases (16.25%) were above 50 years. Out of 400 cases 87 cases (21.75%) were syphilis, 45 cases (11.25%) were chancroid, 73 cases (18.25%) were gonorrhoea, 110 cases (27.50%) were genital herpes, 11 cases (2.75%) molluscum contagiosum 44 cases (11.00%) genital scabies, 9 cases (2.25%) cytomegalovirus infection and 21 cases (5.24%) were having lymphogranuloma venereum. Out of 400 cases of sexually transmitted diseases, 67 cases (16.76%) were HIV positive, amongst which 61 cases (91.04%) were HIV1 and remaining 6 cases (8.96%) were HIV2. Although there is plausible link between STI and HIV risk, intervention studies continue to be disappointing. This does not disprove a causal link, but mechanisms of action and the design and implementation of interventions need to be better understood

## Biography

Narendra Kumar Chopra has completed his master's degree M. D Internal Medicine from "Maharaja Sayajee Rao University" Baroda, India in the year 1986. Subsequently he has completed his Fellowship in Tropical Medicine from Royal Society of Tropical Medicine and Hygiene London (U. K) in the year 1989. He was also awarded WHO Fellowship in the year 1990 in Leprosy, infectious diseases in countries of South East Asia & Africa.

He has also received young scientist Melville Christian Memorial Award and Gold medal at national level in the year 1995 for research in the field of leprosy. He was also awarded Rastriya Gaurav Award by Vice President of India in the year 2002 for outstanding contribution in the field of Infectious diseases. He was also selected in the team by World Health organization for action program for elimination of leprosy in the year 2003. He has published more than 40 research papers in peer reviewed national & International journals. He had worked as Associate Professor and Head Medicine in AIMST University in Bedong Kedah State Malaysia from May 2013 to May 2015. Presently he is working as Clinical Professor and infectious diseases Consultant in the Faculty of Medicine SEGI University, Clinical Campus, Hospital Sibiu (Sarawak State) Malaysia since January 2016. He is also actively involved as Editorial Board of Journal; of Human Virology & Retrovirology from USA and in Editorial Board of "International Journal of Microbiology & Infectious Diseases Open Access Peer Reviewed International Journals. He had given keynote talk on: "Study of HIV status in 400 STD cases" in the 8th Edition International Conference on Infectious Diseases organized by EuriSciCon London (U.K) held in London from 7 & 8 June 2018. He was Moderator and had keynote address on "Past Present & Future Status of HIV/AIDS global pandemic problem in the world" in 12th Edition International Conference on Infectious Diseases held at Rome Italy 23 & 24 April 2019. My field of interest is "New emerging Infectious diseases COVID 19, Zika, Ebola, HIV & AIDS. He is also editorial board member of CPQ Medicine, "Advances in Infectious Diseases & Therapy U.S. A and "MEC International Journal of Clinical Case Studies & Reports" from London U.K

**Keywords:** HIV, STD/STI, HSV2, preventive interventions

**Note:** This work is partly presented at Webinar on Clinical Microbiology and Infectious Diseases, going to be held on April 28th, 2021 GMT+1.
