

Webinar Announcement –Plant Pathology 2020

We are pleased to welcome you to the “Plant Pathology 2020” after the successful completion of the series of pathology Congress. The congress is scheduled to take place in the beautiful city of New York, USA. Nov 25-26. This Plant Pathology 2020 Webinar will provide you with an exemplary research experience and huge ideas.

Plant Pathology is a branch of medical science concerned with the prevention, diagnosis and treatment of infectious diseases. Moreover, this field of science is concerned about various clinical applications of microbes for the improvement of health.

Plant Pathology focuses on the isolation and characterization of infectious organisms so they can be managed and treated in patients. ... To diagnose an infection, a sample must be collected from a patient at a body site where the detection of a pathogen or its associated biomarkers is likely to signify disease.

Plant Pathology 2020 is focusing on “Exploring Innovative Research in Plant Pathology” to develop and explore knowledge among the Plant Pathology community and to launch new businesses and swapping ideas. Providing the right stage to present thought-provoking Keynote talks, Plenary sessions, Discussion Panels, B2B Meetings, Poster symposia, Video Presentations, and Workshops. Plant Pathology 2020 foresees over 200 participants from 7 continents with revolutionary subjects, discussions, and expositions.

This will be a marvellous viability for the researchers, students and the delegates from Universities and Institutes to intermingle with the world-class Scientists, speakers, technicians and Microbiology Practitioners and Industry Professionals working in the field of Plant Pathology system. To enhance the field and make people aware of it.

We would like you to share, extend and impart your valuable thoughts to the

global scientific event set to happen in Texas this year as we start to prepare the dais for a grand discussion.

The organizing committee decided to hold a Webinar. Plant Pathology is one of the fast growing and developing areas of surgery.

People who have missed attending the past Webinar are most welcome to present your research ideas at the 2020 Plant Pathology. This Webinar will help you improve networking with eminent people in the field of Plant Pathology.
