

## Webinar on Materials Science and Technology, April 15, 2020 | Miami, USA

### Past Conference Report

Webinar on Materials Science and Technology is going to be held in Miami, USA during April 15, 2020. Materials Technology 2020 gives the basic ideas related to the innovation of new materials and technologies for sustainability. The field of materials science and engineering involves a wide range of sectors of markets growing respectively like Engineering resins, Polymer alloys and blends, advanced batteries and fuel cells and so on. The Materials Technology 2020 technical program is unmatched, addressing structure, properties, processing, and performance across the materials community. Materials Technology 2020 brings together scientists, engineers, students, suppliers, and business leaders to discuss current research and technical applications, and to shape the future of materials science and technology. With representatives from all the major countries where Material Technology research is on-going in attendance the atmosphere is exciting with open and friendly interaction between attendees.

### Scientific Sessions:

- Ceramics and Composite Materials
- Metals and Metallurgy
- Bio Materials and Bio Devices
- Materials Chemistry
- Optical Materials
- Biosensors and BioElectronic Materials
- Electronic Materials
- Graphene and 2D Materials
- Energy Harvesting Materials

### Organizing Committee Member:

- Agumba O. John, Speaker, lecturer of Physics, Kenya
- Farhang Momeni, Postdoctoral Research Fellow, France
- Soshu Bassa, Department of Chemical Engineering, Hittite University, Çorum, TURKEY

Meetings International has taken an initiative to felicitate attendees with awards to recognize, celebrate and encourage achievement in its various conferences and events. These awards have different committees, nominating procedures and submission deadlines. We salute and acknowledge attainment within an industry that is continuously evolving and re-drawing the boundaries of best practice. These awards represent the pinnacle of professional achievement for event professionals. They recognize Best Eminent Presentation Award, Outstanding Oral Presentation Award, Best Organising Committee Member Award, Outstanding Future Scientist Presentation Award & Best Poster Award. We invite all enthusiastic researchers from all around the world join us for the Material Technology 2020 conference scheduled on April 15, 2020.

### About Meetings International:

Meetings International is a global leader in producing high quality conferences, meetings, workshops and symposia in all major fields of science, technology and medicine. Meetings Int. supports broad scope research and peer review at a broad range of specialists around the world. The key strategic objective of Meetings Int. is to communicate science and medical research between academia, and industry. All major conferences of Meetings International are accredited with Continuing Professional Development (CPD), Continuing Education (CE), and Continuing Medical Education (CME) Credits.
