

Webinar on Nanomaterials

We delightfully welcome you to the “Webinar on Nanomaterials 2020 which is going to be held on September 29, 2020. This webinar will focus on the theme “New Advanced Techniques in the Field of Nanomaterials”. It gives a chance to explore research scholars, delegates and students to interact and share their experience and knowledge in Nanomaterials. It will provide an excellent international forum for sharing knowledge and results in role of Nanomaterials in The aim of the webinar are to provide a platform to the researchers and practitioners from both academia as well as industry to meet the share cutting-edge development in the field.

Scientific Sessions:

- Nano spectroscopy
- Nanofabrication and characterization
- Advance Nanomaterials
- Nanoelectronics and Microsystems
- Nanomedicine and Nanobiotechnology
- Nanotechnology in energy and environment
- Applications of Nanotechnology
- Industrial Nanotechnology
- Nano-Micro Electronics, Metamaterials & Quantum Technology

- System Engineering, Computer Technologies, Telecommunications Engineering & Signal Technology
- Nano spectroscopy

Speakers:

- Xing-Zhong
- Sahriar Ahamed
- Muhammad Sagir
- Mekdes Gerawork
- Amin Mir

Target Audience:

All the Stake Holders (both Academia & Industry) of the Sector, Researchers & Innovators, Experts Looking for Collaborative Work, Product Developers, Solution Providers, Sales & Marketing Professionals, Associations, Societies, & Professional Bodies. All speakers and delegates who have attended the Nanomaterials webinar was very satisfied and glad to share their knowledge in the global platform and meet experts gathering through the Nanomaterials webinar. It will be helpful to many budding scientists, researchers and students etc.
