

## Young Scientist Awards Global Public Health

Luna Mary\*

[Public health](#) is involved with protecting the health of whole populations. Epidemiology is the study and complete review of the cause, effect, and pattern of diseases. It is the key discipline of public health and notifies risk factors for disease and targets for preventive healthcare. The main portion of Epidemiology is to earn a new understanding of the correlation of genetic and environmental factors which affects human health, providing the scientific base for translation of this knowledge to the world. It is applied to extend the description of epidemic diseases and health-related conditions like high blood pressure and Obesity.

[Global Public Health](#) 2021 will provide a wonderful forum for you to refresh your knowledge base and explore the innovations in public health and nutrition. The Conference will aspire in offering plenty of B2B networking opportunities, providing you with the opportunity to meet and interact with the leading scientists and Young researchers, friends and colleagues as well as sponsors and exhibitors.

The theme of the Conference 'Improving Healthcare, Research, Education and Policy Outcomes' will underpin the need for collaboration and cooperation of individuals from a wide range of professional backgrounds. The aim of this event is to promote awareness and improve research aiming in developing solutions for the various public health challenges encountered.

In addition to the informational speakers, you will get an opportunity to interact with and learn from our Business Partners, Exhibitors, and Sponsors. Also, you will get an opportunity to speak with them and personally evaluate if they can be helpful to our practices. And then there are our peers the opportunities to get to know them and learn from each other during networking breaks. Do Bookmark the dates: April 29-30, 2021; we assure you that Global Public Health 2021 would be a great learning and knowledge sharing experience. Keep your eyes peeled for more information to follow.

Today, young researchers wish to start publishing articles early on in their career. Healthcare Management Conference Committee is glad to announce "6th Global Public Health, Occupational Safety and Health" April 29-30,
